SAVE OUR SKYLINE PETITION

We the undersigned call on Hammersmith Council to reject the plans for redevelopment of the area around the Town Hall on King Street. We believe that:

- **The height and density of the proposed development (rising to fourteen storeys) is excessive and out of keeping with the surrounding area**
- **The proposed 2,000m^2 supermarket is unnecessary and will undermine existing local shops**
- **The proposed bridge with its high access ramps will have a negative impact on Furnivall Gardens and the historic riverside buildings**
- **The 1930s cinema and 1900s Cromwell Mansions should be preserved, and the cinema should continue to operate as a cultural asset to the community**
- **The blind and elderly tenants of Pocklington Buildings should not be forced out of their homes of many years.**
